

# Creation

## Years 3 and 4

- The children learn that God created us so that we can love Him and love others.
- The children identify why God Called Jesus at his Baptism.
- They learn that we, like the disciples, are called to respond to God through Baptism and know that the symbols of Baptism speak of God's protection.
- They recognise that we care for God's creation and find ways that other people look after creation in our own community.
- The children learn how God protects and works through human beings, through the example of Abraham and Isaac.
- They explore how we are made in God's image and likeness and that the school's mission statement reminds us to recognise this in others.
- The children learn what church organisations such as CAFOD do to value and respect God's creation and how we can support it.
